

How to wash your eyelids with **meyelids**

1. Wash your hands with mild soap, rinse well.
2. Hold the **meyelids** bottle upright and pump a comfortable amount of foam onto your 2nd and 3rd fingers.

3. Touch the 2nd and 3rd fingers of both hands together, sharing the foam between both hands.

4. Gently close your eyes, do no squeeze too tightly.
5. Rub the foam soap into the eyelashes of your closed eyelids for 45 seconds.
It is important to agitate the foam soap in multiple directions: side to side motion, up and down and small circles. This will ensure that all lashes have been cleaned thoroughly.
6. Rinse with warm water.
